*"People are being cautious and prudent right now, but after a while they'll feel comfortable enough to buy. The co-op system, with all its rigors and demands, has helped protect against foreclosures. Real estate is about finding a home for your family and friends."*  
—Elizabeth Stribling

*"I've been through several recessions. If you're buying real estate, you're buying something to live in, a space for your family."*  
—Mario Buatta
