AVENUE POWER ELITE 2018

THINGS CHANGE. Things stay the same. AVENUE has published its annual A-List for decades, and last year updated it, renaming it the Power Elite List and dividing it into broad categories that reflect life at the top in the 21st century in our city. This is not an American A-List, or an International A-List, or a list of who gets invited to screenings of the latest Marvel cartoon character movies. It's a tabulation of power in this city at this moment. And our team strives to keep it up-to-date.

This year, a handful of powerful men disappeared from the precincts of power in our town, and this list reflects their departure. Politics in New York has turned a corner, too. Suddenly, self-described socialists win elections here, and (at least some) backers of the current administration in Washington admit to second thoughts. This is healthy. Like our skyline, our establishment is permanent even as it is ever-evolving. With this list, we celebrate it—and those of you who've made it. And if you didn't, remember what we said last year: There's always next year.
